Dear Small World,

as President and legal representative of Italian NGO Efo & Awa Onlus, I'd like to officially thank Your organization and Abu Dhaby's country for funding and supporting our child sponsorship project “Lei non sa chi sono io?! - You don't know who I am?!”, dedicated to some children selected among the most needy in Guinaw Rail – Senegal.

Thanks to your financing, 11 children included into our child sponsorship project are attending the school's year 2012/2013 into some different schools selected by Efo & Awa Onlus and his senegalese partners C.C.D.G.R. (Comite de Coordination puor le Developpement de Guinaw Rail). With you help we also have now the opportunity to organize some important structural works in their houses to make usable their toilets and septic fosses that are actually in critical state. This works will facilitate their daily lives and change them in a better way, improving the houses hygenic conditions. During this works period, we'll send regular reports, factures and photos that will testify the houses conditions before and after this changes.

Thanking again also in the name of all children included in our child sponsorship project, we wish you a good work and a florid future for all your current and future activities.
