We would like to thank you for the donation made to DIF Torreón. With your help, during this year we will benefit 34 children who are living in very difficult conditions in our city.

All this children have family integration problems and economic problems, so they have the need to go to streets to earn money to support their families. For this reason some of them leaved the school and were at risk of falling into drugs and gangs.

With the donation received can change the lives of these children, with the montly support they will continue their studies without having to resort to the streets to work.

Guaranteed their education they may obtain better life for themselves and their families.
